

Work for equality - "WE"- A step towards equal opportunities

Monthly Newsletter -September 2017

Work for Equality is a registered organization working for the benefits of marginalized communities especially with children for their holistic development.

Achievements of the month:

NGO LEADERSHIP AWARD: Indira group of Institute has felicitated "NGO Leadership award" to Work for Equality organization for our contribution in development sector and changing lives of marginalized children.

PRERANA RAINBOW HOME FOR STREET GIRLS:

Though Pune is a mother place of education, still there are around ten thousand children in Pune who are on street and maximum of them are not getting educational opportunities. Education and safe shelter are basic rights of the children, to provide them basic rights, Work for Equality organization is opening safe home for street girls at Pune.

EARLY CHILDHOOD DEVELOPMENT PROGRAM: it is scientifically proven, that maximum brain development process is completed up to the age group of 0 to 3 years. In this specific age, a child needs maximum attention, stimulation and care, unfortunately, even educated people don't know the scientific ways of rearing children. Through this program we are trying to educate parents and developing their skills of parenting through involving adolescent girls.

CHANGING BEHAVIORS: regular support, love and guidance to the marginalized children and parents is changing their behavior slowly, at the beginning many parents were giving only junk food in the tiffin, but now they are consciously cooking nutritious food at home for their children. And many children are not going to school for any minor reason but now school attendance is also improving. Parents themselves realized and accepted that they are not taking health issues seriously, this realization is making positive changes in their behavior. Those parents who did not take their child's education seriously, are doing regular follow ups with teachers regarding their child's educational development. Some of the parents have started saving for their child's educational purpose.

One major change we are observing in many parents is that they are slowly realizing the side effect of their fighting in front of their child, some of them shared "though we have different opinions but we will avoid to fight before children".

Children have started taking care of their siblings and slowly improving their relationship with parents.

Capacity building of PRERANA teachers: in the month of September we have organized three capacity building training programs on different topics such as reproductive health, documentation and Child Development. Such trainings are useful to increasing skills of staffs.

Awareness workshop: facilitated by Work for Equality organization, approximately fifty employees has were benefited through the program
