

## Work for equality - "WE"- A step towards equal opportunities

Monthly Newsletter -August 2017

**Work for Equality is a registered organization working for the benefits of marginalized communities especially with children for their holistic development.**

### **Achievement of this month:**

**Increasing awareness among Marginalized parents:** daily support to the marginalized parents helps to increase their participation in children's development, it has proved when parents started sharing with PRERANA teachers about their children's educational strength and weakness. Not only that, now parents are ready to learn things those making positive effects on their children's physical and mental health, at the beginning, the same parents didn't show interest to participate in the program related their children's development.

**Success story:** Sant Tukaram Nagar community having more than 40 children under age group of 3 to 6 years, having no access to playgroup facility. Many children either play entire day in the community or go with to the work because they don't have playgroup facility. The parents were aware of the needs of playgroup facility, but due to lack of support and guidance, they were not able to raise their voice. We provided support and guidance to the community, the result is they continue following to the local government for starting playgroup for their children. To understand the need of hours we have started a playgroup for the children. Currently, 40 children are taking benefit of the program.

**PRERANA Center Initiatives:** through PRERANA, we are not only providing educational guidance to the marginalized children but also providing counseling, life skills, nutritional, Health and medical support to the children for their holistic development. Children having disturb families not getting enough supportive environment for their development, such crucial period, these platforms are supporting the children to share their concerns

**Technical support:** One of the major factors behind violence against women is, lack of awareness among society about various Law's for women, Work for Equality is trying to build capacity of different groups of society including employees on women related issues such as Sexual harassment of women at workplace act 2013. This month we had to interact with more than 50 employees and motivated them to change their passive attitude on women's issue,

**Team Capacity Building:** in the month of August our team participated in different training programs on child rights, such as child-friendly space, we successfully completed the training course on Strategic Management of NGO's. Also, we organized In-house training for the PRERANA teacher to develop their knowledge of a human body. Such training is helping us to develop our perspective on various social issues
